SOLUTIONS ENGINEERING | VOICE AI | WORKFLOW INTEGRATION

Carlsbad, CA | (619) 707-4707 | d.miller@dgxtech.io
DGX project portfolio: dgxtech.io | linkedin.com/in/dam1rgt3

Hands-on AI implementation specialist with experience deploying voice agents and connecting them to CRM platforms and business workflows. Background in customer discovery, conversation design and production evaluation across aviation, real estate and architecture. Seeking a full-time solutions engineering role focused on customer implementation and reliable voice-agent delivery.

RELEVANT EXPERIENCE

Founder & AI Implementation Lead

2025 - Present

DGX Enterprise AI LLC | Carlsbad, CA

- Built a self-funded AI implementation business serving commercial clients. Led workflow analysis, agent configuration and deployment; coordinated specialist developers for custom implementation work.
- Deployed voice AI systems that handled **100+ hours of live customer conversations** and registered **840+ leads** in client pipelines.
- Analyzed customer calls and staff responsibilities to define intake requirements, conversation flows and handoffs between agents and business systems.
- Connected conversational agents to CRMs, databases and automated workflows using API integrations and webhooks. Reviewed production conversations and tool-execution records to refine agent behavior and identify incomplete tasks.

SELECTED IMPLEMENTATION WORK

Voice intake and CRM integration

- Configured customer-intake agents using ElevenLabs and Twilio, with n8n workflows connecting conversations to client operations. Structured company and contact lookups in Pipedrive, information collection and final intake submission.

Post-call monitoring and follow-up

- Used required tool execution as an intake-completion check. Connected post-call data to workflow logic, recordkeeping and email alerts for calls that ended before the required submission step.

Legal intake | In development

- Began developing an intake workflow with a San Diego-based attorney, covering structured interviews, evidence organization and draft CH/DV forms for attorney review.

TECHNICAL TOOLKIT

Voice & agents: ElevenLabs, Twilio, OpenClaw
Integration & data: n8n, REST APIs, webhooks, Supabase, Airtable, Pipedrive, HubSpot
Deployment: DigitalOcean, Cloudflare, Netlify, Vercel, Hostinger
Knowledge & collaboration: Notion

ADDITIONAL PROFESSIONAL EXPERIENCE

Senior Project Manager
2021 - 2024

Nuway Express Inc.

- Managed project delivery and monitored execution for a government contractor with awards involving the U.S. Navy, Air Force, Army and County of San Diego.
- Interpreted federal acquisition requirements for bids and coordinated vendors, clients and government stakeholders throughout delivery.

Operations Manager
2018 - 2021

Lions Auto Transport

- Managed **5,000+ local and interstate transport orders**, coordinating vehicle assignments and carrier availability across multiple load boards.

Logistics Specialist
2016 - 2017

Huawei Technologies Co. Ltd.

- Coordinated international air, rail and sea deliveries within a multinational supply-chain team and reported on CIS-region operations to global colleagues.
- Used **GTM (Global Trade Management)**, **ISDP (Integrated Service Delivery Platform)** and **ECC (E Customs Clearance)** for logistics tracking and monitoring.

Managing Partner
2015 - 2016

TransRoute Express LLP

- Led a **nine-person team** planning routes for **$29 million in supplies and equipment**; monitored contractual and regulatory requirements throughout delivery.
- Helped develop an automated process for incoming documents in multiple languages, including Chinese, and trained staff on new tracking procedures.

Logistics Manager
2012 - 2015

Bravis Alliance Ltd.

- Developed and operated automated systems to improve supply flows; oversaw shipment authorization, tracking and cross-border transport.
